"If you know you are on the right track, if you have this inner knowledge, then nobody can turn you off, no matter what they say." - Barbara McClintock

Determination is your best friend in following your dreams.
You've got the idea, you know it's what you are meant to do,
you've magically got all the tools at your disposal to get started.
Determination makes it happen.

Yeah, but...

That phrase has got to go if you plan to live your life as fully and joyfully as you know you want to.

Your determination to follow your dream, to listen to the calling of your soul, is your job in life. Do you think you exist to cater to demanding relatives or a megalomaniac boss or to watch television?

Think again, my friend.

We want to benefit from your contribution as much as you do, so get some determination on and go for it!
